Middle Leader Certificate: Curriculum Design

18-month personal accreditation course for subject leaders

This course consists of two modules, a micro module and a macro module, which can be completed in any order. Each module takes two terms to complete. The micro module focuses on the design, delivery and reflection of a challenging scheme of work. The macro module concentrates on curriculum design in the form of long-term planning across at least two key stages. An experienced subject tutor will mentor each candidate to help them develop their schemes of work and inspire exceptional curriculum design. Candidates receive online tutorials and support throughout the course. Once both modules are successfully achieved, a PTI Middle Leader Certificate is attained.

- ✓ Consider coherence and challenge within your subject's curriculum
- ✓ Identify and respond to the conditions that impact on the learning process
- ✓ Create and deliver a challenging SoW in the micro module and curriculum design in the macro module
- ✓ Evidence and evaluate the outcome following delivery
