

Mathematics

New Teacher Subject Days

Subject enrichment and pedagogy for those in their first few years of teaching

A course of four Saturdays
London, Manchester and Birmingham

These courses are designed and led by practising teachers, bringing you academic inspiration that is grounded in successful classroom practice

- Subject-specific guidance on teaching strategies and a wealth of Mathematics resources
- Guest speakers from leading universities and the opportunity to explore practical teaching methods with guidance on how to develop pupils' mastery
- Provides new teachers with a network of peers and experienced teachers in their subject

Topics covered:

- Fractions, decimals and percentages
- Algebraic manipulation
- Angle reasoning, geometry and trigonometry
- Ratio and proportion

Eligibility

Courses are recommended for in-school trainees and those in their first few years of teaching. The programme is designed for subject specialists, however, non-specialists are encouraged to contact us to discuss suitability.
